

REMARKS

Claims 1, 6, 7, and 12 remain in the application with claims 1 and 7 having been amended hereby.

Reconsideration is respectfully requested of the rejection of the claims 35 USC 112, first paragraph, as not being enabled by the specification.

The examiner has noted that the independent claims are misdescriptive concerning what is being changed in the display panel.

The claims have been amended hereby to more accurately reflect the manner in which the present invention is described and, particularly, to reflect the last paragraph on page 30 that is describing the showing in Figs. 7A and 7B.

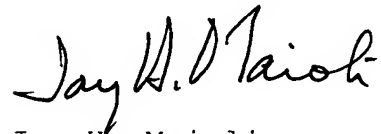

Accordingly, by reason of the amendments made to the claims hereby, it is respectfully submitted that the claims are clear and definite in their recitation of the present invention and are adequately described in the specification and shown in the drawings so as to enable one with ordinary skill in the art to make and use the claimed invention.

The references cited as of interest have been reviewed and are not seen to show or suggest the present invention as recited in the amended claims.

Favorable reconsideration is earnestly solicited.

Respectfully submitted,
